Company Overview

MDE Group is at the forefront of the Communications and Electrical field. We have a solid reputation for timely delivery of projects, consistently high standard of workmanship and returning value for money to our clients.

Our Services

MDE Group has considerable expertise providing the following services:

- ✓ Electrical Services
- ✓ Communications Services
- ✓ Security & Building Management Systems
- ✓ Service & Breakdowns
- ✓ Preventative maintenance
- ✓ Energy Audits

Central Location

Our base is at the edge of the Sydney CBD in Rozelle, giving you peace of mind that in the case of a breakdown or fault in your electrical or communications system - we'll respond rapidly and in most cases will have stock of the parts needed to rectify the problem.

We offer you a 24/7 Breakdown Service as well as a 'Service Level Agreement' to meet your unique needs and budget.

Our Team

At MDE Group, we're a dynamic team with a wealth of experience and expertise in Commercial Electrical, Communications and Voice services.

In recent years, the MDE Group has grown to now have 3 Directors and a vast team of Tradesmen with specialised capabilities to deal with the most complex design and installation project right through to more routine tasks such as preventative maintenance.

Communications. Electrical. Voice

From Concept to Completion

Our focus as a contracting and service group is to provide the expertise required in designing, supplying, installing and maintaining a wide range of building utility services including electrical, communications and voice services.

Testimonial

"I have used the team from MDE Group P/L on a number of sites over the past couple of years. During that time I have found them to be courteous and professional especially with dealing and working within public spaces. The Management team is always available to field enquiries and the team has never let me down. I would recommend MDE Group P/ L to any organisation."

Structured Cabling Solutions

The Communications field is one of constant change with wiring standards and systems being constantly upgraded to match the demands of technology. We pride ourselves on being up to date with the latest technology and product specification which enables us to design and install a complete “Structured Cabling Solution” to best serve our clients requirements.

MDE Group are certified installers for a broad range of vendors to ensure the product we deliver will stand the test of time. We offer a complete Communications service which encompasses both Copper and Fibre Optic cabling.

Testimonial

“MDE has & will continue to be my first point of call for all my installation requirements plus ongoing service needs related to the UPS & battery equipment we sell.”

Bruce Ewen

Network Data Solutions

Security & Building Management Systems

- ✓ Integrated security systems – with Lighting Control & BMS
- ✓ Building Management Systems – Cabling of proprietary systems

MDE Group Holds a Master Security License

The passive security industry is undergoing change, adopting the more universal IP technology, thus making the task of integrating systems far more accessible and cost effective.

This technology has also made the demarcation between Communications cabling and Security cabling redundant. Possessing a Master Security license, MDE Group can also provide a complete and integrated Security System designed to suit specific requirements.

Building Management Systems

MDE Group also offers Building Management Systems advice and cabling solutions for most propriety systems.

Communications. Electrical. Voice

Service & Breakdowns

- ✓ 24/7 Electrical & Communications Service - Sydney
- ✓ Fully equipped services vehicles & extensive stock on hand

Service Level Agreements to suit your needs

With our fleet of modern service vehicles, we can offer you prompt and reliable service. To assist you in returning to normal operations quickly, our service vehicles are kept appropriately stocked to handle most breakdown and service calls.

MDE Group offers an extensive variety of "Service Level Agreements" to suit your business requirements, budget and operational needs. These are tailored to suit Priority of Response, Location, Operational Type and the Skills base required to get the job done.

Preventative Maintenance

With your budget and functional requirements in mind - we can produce a comprehensive plan for Preventative Maintenance of your systems. The alternative could be a costly "call-out" from a tradesman if your system were to experience a fault or breakdown - probably when you can afford it least.

We work with you to create a Plan

- ✓ Set up schedule based on your needs - type and use of facility
- ✓ Full Reticulation Maintenance
- ✓ Thermal Scanning
- ✓ MSB/DB Maintenance
- ✓ General Lighting Maintenance
- ✓ Load Testing of Alternate Power Systems
- ✓ Testing & Tagging of Appliances & Equipment
- ✓ Reminders for Warranty etc
- ✓ This services expands on the Breakdown Service and provides a cost effective scheduled maintenance program.

Communications. Electrical. Voice

Energy Audits

- ✓ Accredited Installer & Advisor - NECA EcoSmart
- ✓ Identify Improvements in Energy Efficiency
- ✓ Identify Real Savings for your Business

The inefficient use of energy can cost your business thousands every year and with further increases in energy costs on the horizon - that figure could grow dramatically.

MDE Group offers an Energy Audit service for your premises and electrical systems to determine where inefficiencies in energy use exist.

With the emphasis on the Environment and Sustainability, we can audit / monitor locations to provide details including load type, characteristics of the load, time of day and potential areas of improvement - making real saving for your business in the process.
